## SUMMARY

As an experienced engineer, I have consistently deliver high-quality solutions, ensuring productivity and improving user experiences. Proficient across diverse technologies, I excel in crafting innovative solutions to complex challenges. My collaborative approach honed through extensive cross-functional teamwork, enables effective problem-solving and solution development.

## SKILLS

### Software Development Skills

React	Next.js	Android SDK	Java	JavaScript	Tailwind CSS	HTML/CSS	Bootstrap
SQL (MS SQL, Sybase)	NoSQL (Firebase, MongoDB)	Prisma	Node.js	Microsoft Power BI			

## PROFESSIONAL EXPERIENCE

### Software Development & Problem-Solving Expertise

- Proven ability to efficiently tackle complex problems, breaking them down into manageable parts and identifying optimal solutions managing constraints, resources, and requirements.
- Successfully streamlined user permission workflows by developing a modular role system using the data model API, resulting in a substantial decrease in setup time with a 50% reduction in user errors.

### Focused Software Development Processes-Driven Solutions

- Instrumental in designing and developing an internal configuration module utilizing SOM API, leading to a streamlined product management development workflow and a substantial 50% enhancement in production efficiency and accuracy.
- Spearheaded the design and implementation of an automated reporting system leveraging SQL Reporting Services (SSRS), resulting in a notable 20% acceleration in reporting speed for the Customer Relations Analytics Department.

### Communication and Cross-Departmental Collaboration

- Engaged in collaborative efforts with cross-functional teams to conceptualize, design, develop, and deploy mobile applications, fostering seamless communication and synergy across departments.
- Demonstrated commitment to continuous learning and professional development by actively participating in workshops and online courses, enhancing skills and knowledge to contribute effectively to collaborative endeavors.

## WORK HISTORY

### Senior Programmer

#### JANUS et Cie

📅 2018 - Present 📍 Santa Fe Springs, California

### Programmer

#### JANUS et Cie

📅 2014 - 2018 📍 Santa Fe Springs, California

## PROJECTS

### Quantum

📅 2023 - 2024

Next.js full-stack Blog Web Application - [www.example.vercel.com](http://www.example.vercel.com)

- This blog application utilizes Next.js 13 (App Router & Server Actions) to efficiently manage page transitions and dynamic routing
- React, Next.js 13, App Router, Tailwind CSS, Prisma, MongoDB, Next-Auth, React Quill

### Nyms

📅 2023 - 2024

Android SDK Word-Guessing Game - [www.github.com/csudhtoro/Nyms](https://github.com/csudhtoro/Nyms)

- The Android word-guessing game challenges players to decipher hidden words through intuitive UI
- Java, Android SDK, Material Design, MVVM, Rounded Progress Bar

## EDUCATION

### Bachelor of Science, Computer Science

#### CALIFORNIA STATE UNIVERSITY FULLERTON

📅 2015 - 2018
